SDGs as the Roadmap for Peace and Prosperity for All: Atlanta Peace Education Project

AGSC is leading an initiative to create a metropolitan [peace education project](#). The goal is to create a peace studies ecosystem in Atlanta that spans schools and disciplines such as engineering, health sciences, and humanities, and social sciences. That's because peace isn't just about the absence of violence and understanding what causes that violence. It's also about finding ways to promote health, access to food, water, and education, a clean environment, justice, and more. SDGs provide the roadmap for the project. The effort is undertaken in partnership with the [Atlanta Peace Initiative \(API\)](#), a non-profit group of civic and business leaders seeking to bring the World Summit of Nobel Peace Laureates to Atlanta every three years and launch the Americas office of the Secretariat of the World Summit in Atlanta. The vision of API is for Atlanta to be the North American home for peace.
