

Test your Environment Quotient with India's Premier Environment Olympiad

The GREEN Olympiad

The 'Green Olympiad' initiated in 1999 is India's finest and premier bi-lingual Olympiad conducted by The Energy and Resources Institute (TERI). The growth of the Olympiad in terms of its extent and numbers is an indication of its success. The examination reaches out to over 2000 schools. Initially the Olympiad was for students of class 8-10 but the examination is now conducted at 3 levels, for students from classes 4-10.

The 'Green Olympiad' is not just restricted to India, but has gone international with participation of schools from Nepal, Singapore, Kenya, Indonesia, Iran, Bhutan, Sultanate of Oman, United Arab Emirates, Kuwait, Qatar, Kingdom of Saudi Arabia, Russia, and Mexico D.F. An indication of the quality of the Olympiad can be gauged from the fact that it is endorsed by United Nations Educational, Scientific and Cultural Organisation (UNESCO) since 2011. The program has also received support from the Ministry of Environment, Forest and Climate Change (MoEF&CC) and the Central Board of Secondary Education (CBSE) and has earned strong linkages with, Kendriya Vidyalaya Sangathan, Navodaya Vidyalaya Samiti, Army Welfare Education Society and Bharatiya Vidya Bhavan Schools.

The 'Green Olympiad' is a written examination comprising objective questions that tests the student's knowledge, application and analytical skills; and simultaneously spreads awareness through informative questions in a booklet that can be retained by the student. There are no negative markings and students answer from the comfort of their school as each school is a centre for its registered students. This is a bilingual examination.

This year the 'Green Olympiad' is themed under 'Our Environment' and schools can choose the examination date from the two options provided. To register, download sample question papers and for additional information log on to www.teriin.org/olympiad

Dates of Examination

30th August, 2016 and

22nd November 2016

Last date of registration: 26th July 2016

"The Green Olympiad prepared me to think seriously towards my environment and nature"

- Pragati Dubey (Student)

Panani Jnanpeeth EMHS, Madhya Pradesh

"The GREEN Olympiad is a great way to test one's knowledge and interests about the wonderful environment around us."

Navaneeth (Student)

Global Indian International School, Singapore

Winners at global, country, state level and top performing schools win cash prizes along with special discounts and offers on TERI publications, products and services. Moreover, all participants and coordinating teachers receive certificates.

The benefits of this program, thus definitely tilt towards participating in this prestigious 'Green Olympiad' that is built around environment education curriculum.

"It steers young minds to try and understand the environment, the challenges we face and learn about sustainable solutions, so that they can be stewards of our planet."

- Teacher, Abu Dhabi Indian School

'It was indeed a privilege for our students to participate in this examination'

- Principal, Asian School, Dehradun
